DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (DSM)** is the national standardisation

and accreditation body.

The main function of the Department is to foster and promote standards,

standardisation and accreditation as a means of advancing the national

economy, promoting industrial efficiency and development, benefiting the health

and safety of the public, protecting the consumers, facilitating domestic and

international trade and furthering international cooperation in relation to standards

and standardisation.

Malaysian Standards are developed through consensus by committees which

comprise of balanced representation of producers, users, consumers and others

with relevant interests, as may be appropriate to the subject in hand. These

standards where appropriate are adoption of international standards. Approval of

a standard as a Malaysian Standard is governed by the Standards of Malaysia

Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of

Malaysian Standards is voluntary except in so far as they are made mandatory by

regulatory authorities by means of regulations, local by-laws or any other similar

ways.

The Department of Standards appoints SIRIM Berhad as the agent to develop

Malaysian Standards. The Department also appoints SIRIM Berhad as the agent

OR

for distribution and sale of Malaysian Standards.

The Technical Committee on Electromagnetic Compatibility (EMC) which developed this Malaysian Standard consists of representatives from the following organisations:

Federation of Malaysian Manufacturers

Jabatan Bekalan Elektrik dan Gas

Ministry of Domestic Trade and Consumer Affairs

SIRIM Berhad (Secretariat)

SIRIM QAS Sdn. Berhad

Suruhanjaya Komunikasi dan Multimedia Malaysia

Tenaga Nasional Berhad Research Sdn. Berhad

The Electrical and Electronics Association of Malaysia

The Institution of Engineers, Malaysia

Universiti Teknologi Malaysia

MS CISPR 23:2002

NATIONAL FOREWORD

This Malaysian Standard was developed by the Technical Committee on Electromagnetic Compatibility (EMC) under the authority of the Electrotechnical Industry Standards Committee.

This Malaysian Standard is identical with CISPR 23: 1987, 'Determination of limits for industrial, scientific and medical equipment', published by the International Electrotechnical Commission (IEC). The text of the IEC Standard is recommended for publication as a Malaysian Standard without deviation. However, for the purpose of this Malaysian Standard, the following apply:

- a) in the source text, "this IEC Standard" should read "this Malaysian Standard";
- b) the comma which is used as a decimal sign (if any), to read as a full point; and
- the basis CISPR 23 is printed in English and French languages. However, only the English version on odd pages is retained for this Malaysian Standard.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE. IDT on the front cover indicates and identical standard i. e. a standard where the technical content, structure, wording and presentation of a Malaysian Standard is exactly the same as in an International Standard or is identical in technical content and it may contain the minimal editorial changes specified in clause 4.2 of ISO/IEC Guide 21.
